MAKING CIVIL SOCIETY COOL

VOLUNTARY WORK HAS GREAT VALUE

Volunteers all over the world participate in solving global problems and building local communities. However, a large proportion of the world's population lacks freedom of assembly. We think getting together for meaningful causes should be fun and easy for everybody!

WE'RE ALREADY OUT THERE

Membook is a growing B2B SAAS business that automates the routine tasks of running an association. It is also a platform that helps community members communicate and connect. Membook was released in Finland in 2016 and we are expanding internationally in 2017.

WE'VE GOT WHAT IT TAKES

Membook was founded by Tiina Vainio and Timo Kero, based on their experiences from more than 20 years in the world of IT and associations. Why settle for a membership register, when associations could be helped in so many other ways? Two years later, we already have our first clients and we are up and running.

COULD YOU BE PART OF OUR STORY?

We are looking for partners who share our vision. If you are an early adopter or a thought leader in the field of NGOs, we would love to get to know you! As to investors, our first funding round will take place in 2017, and we are looking for our first contacts now.
